

# Bounce House Safety

**1,500%**

The increase in bouncer related injuries since 1995.

**30**

The average number of children injured on a bouncer every day.

**6+**

The age of children that should be allowed in the bouncer.

**1**

The recommended number of children in a bouncer at a time.

## Quick Tips

- Provide constant adult supervision.
- Don't allow rough play.
- If the house begins to lose air, stop playing and exit the bouncer.
- Follow all manufacturer guidelines.
