

Firework Safety

Leave the fireworks to the professionals!

Fireworks are often used in celebration but also cause thousands of burns and injuries each year.

Follow these safety tips to keep everyone safe.

Firework Safety Tips:

- ★ Obey all local laws regarding the use of fireworks.
- ★ Ensure a responsible adult is supervising all firework activities
- ★ Use fireworks outdoors in a clear area, away from buildings, vehicles, and trees.
- ★ Have a bucket of water and charged water hose nearby.
- ★ Light one firework at a time and quickly move away.
- ★ Know your fireworks; read the caution labels and performance descriptions before igniting.
- ★ Wear safety glasses when shooting fireworks.

Sparklers are **HOW** hot?

Don't Forget About Your Pet!

- ★ Do not bring your pets to a fireworks display, no matter their size.
- ★ If fireworks are being used near your home, lead your pet into a safe, interior room to avoid sound exposure.
- ★ Ensure your pet has an identification tag.
